

## Color Range - Custom Jewellery

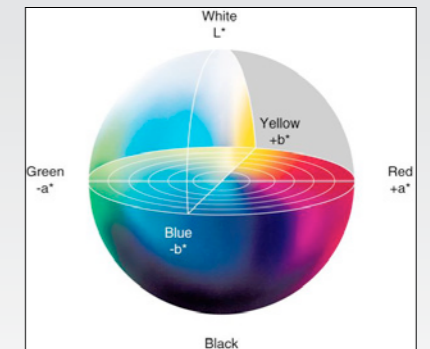

IWG has more than 50 years experience in electroplating and metal finishing. The family business stands for continuity, high quality and flexibility. Thereby a synergy is created, reflecting the service and communication with clients

IWG is a family-owned company with its head office in Vienna. Branch offices within the international network, particularly in the Arab and Asian regions, guarantee regional and flexible customer service.

The head office in Vienna focuses on the research of new processes and the enhancement of existing products.

There is a major advantage for the customer: the client obtains everything from a single source - development, production, sales and technical service.

IWG sets a benchmark because of its advanced laboratory technology for premium products.
